NBPERG730 KEVLAR	\$59.99	\$52.99

Ergodyne® made the ProFlex® 730 Fire & Rescue Performance, an extreme glove that performs in the extreme. These double-needle-stitched Kevlar® gloves can be used for extrication rescues and other jobs that push the limits of endurance. They have Keprotec® on the palms, fingers and thumb saddles, too, and Amara™ on the fingers, thumbs and palms for killer protection. Plus, they're PVC-reinforced at the fingertip gripping zones to retain a tighter hold, while EVA padding cuts down on shock and impact to the hands. And they're comfortable; thanks to a spandex shell that also provides a good fit. Lime/Black. Sold in pairs
